SAINT PAUL, MINNESOTA

Foreword

THE HOMES illustrated in this book are from actual photographs, which combine beauty, convenience and economy and bring to you the very latest in style and design of practical up-to-the-minute architecture. Your home is the reflection of your personality and the expression of your ideas, and with this thought in mind, it is hoped that the suggestions carried out in the interior and exterior planning of the homes shown herein will assist you in selecting a design conforming to your individual taste and requirements.

The proper selection of shrubbery adds wonderfully to the artistic appearance of any home, and in these illustrations we have endeavored to show how the placing of flowers, shrubbery, well located trees, a vine on a trellis—little touches that the home owner can do himself to make a charming spot, though the house itself be small, even plain.

In the preparation of this book, great care has been exercised in selecting these types of homes that are in great demand and that can be constructed simply and economically by any competent carpenter or contractor. The interiors have been carefully and thoughtfully planned and excellent results have been accomplished in the number and size of rooms provided, considering the outside dimensions.

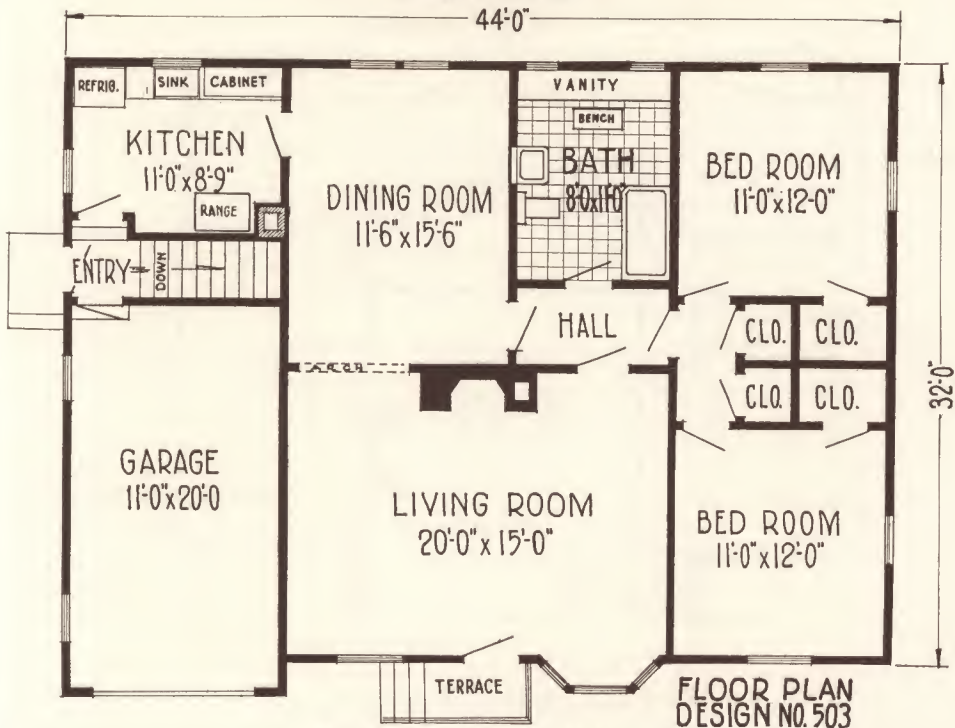

Alternative Floor Plans

To further assist you in the selection of a plan best suited to your requirements, both as to size and room arrangement, we have in some instances shown two or more floor plans for each house design illustrated. After selecting a suitable design, as to the exterior appearance, you should then decide definitely on the number of rooms required. To determine proper size of the various rooms, it would be advisable to measure the rooms in your present home and then compare with measurements shown on plan. If you desire to increase the size of a certain room by diminishing the size of another, it is a very simple matter for the carpenter or contractor to change location of partition walls. This same suggestion applies to location of windows and doors.

In planning the interiors, we have endeavored to make the arrangement of rooms thoroughly practical and convenient from every standpoint and to utilize every inch of floor space. The homes are all planned in a most economical way so as to eliminate the use of any material not absolutely required and for this reason it is advisable to conform to the outside dimensions of plans shown.

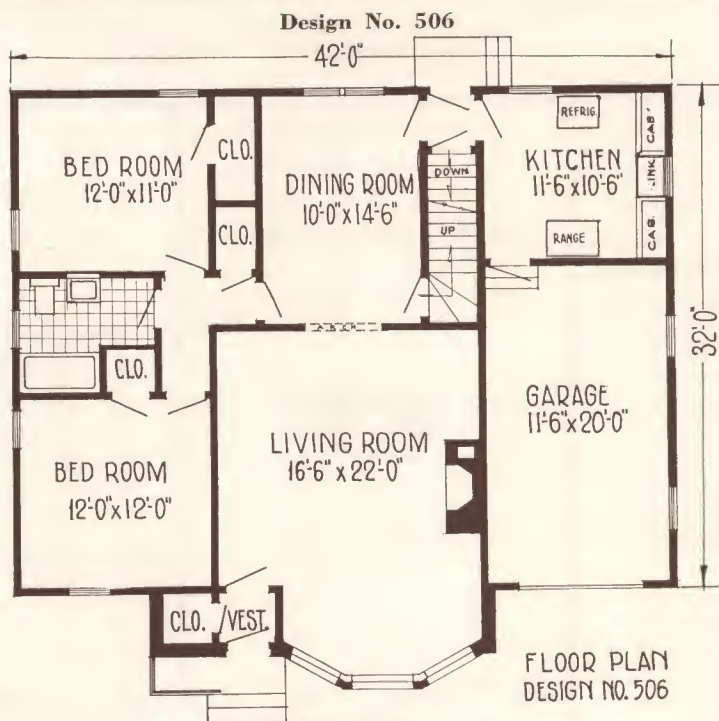

Design No. 503

Plan No. 503—Size, 44 by 32 feet.

This artistic Southern type bungalow is very attractive in design and very simple in construction. The interior arrangement provides for a spacious living room having fireplace and arched opening to large dining room, good size kitchen with ample cabinets, range and refrigerator space and door to side entry leading to basement, garage and outdoors, large bathroom with built-in vanity, and two large bedrooms with roomy closets connected with center hall which has two clothes closets. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

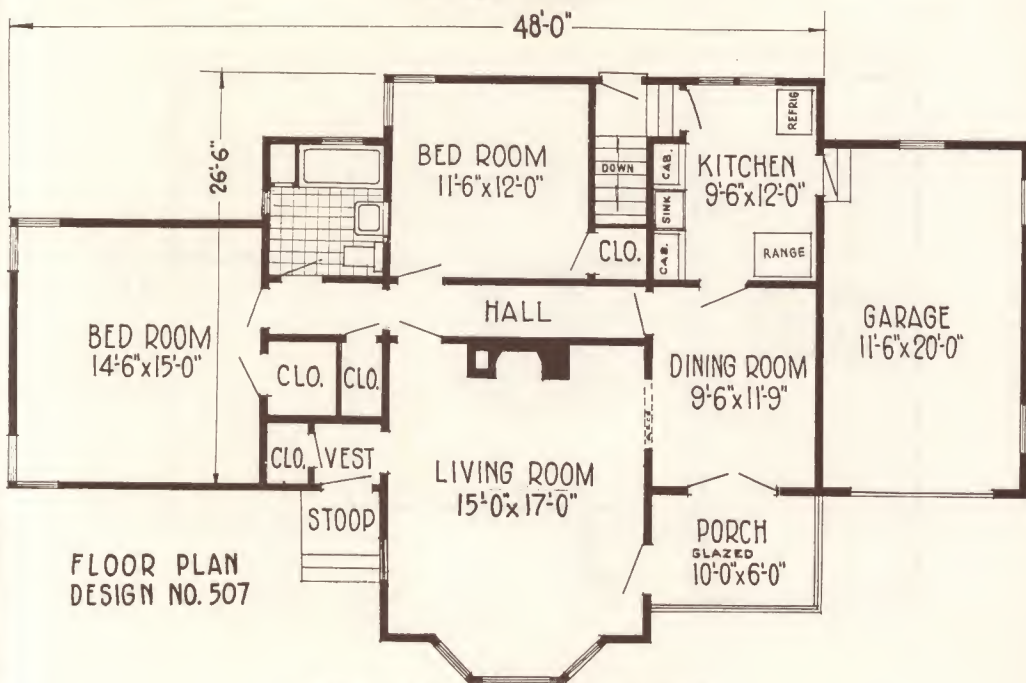

Plan No. 506—Size, 42 by 32 feet.

The living room and vestibule projection with stone walls gives this attractive home a much costlier appearance. The vestibule has a closet and door to spacious living room having fireplace and arched entrance to dining room, which has door to stairway to second floor where two additional rooms and lavatory may be provided. The kitchen has ample cabinets, space for range and refrigerator and door to rear entry leading to garage, basement and outdoors. Two good size bedrooms with closets are connected with small hall and bathroom. Exterior walls are shingled except walls of projection. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 507

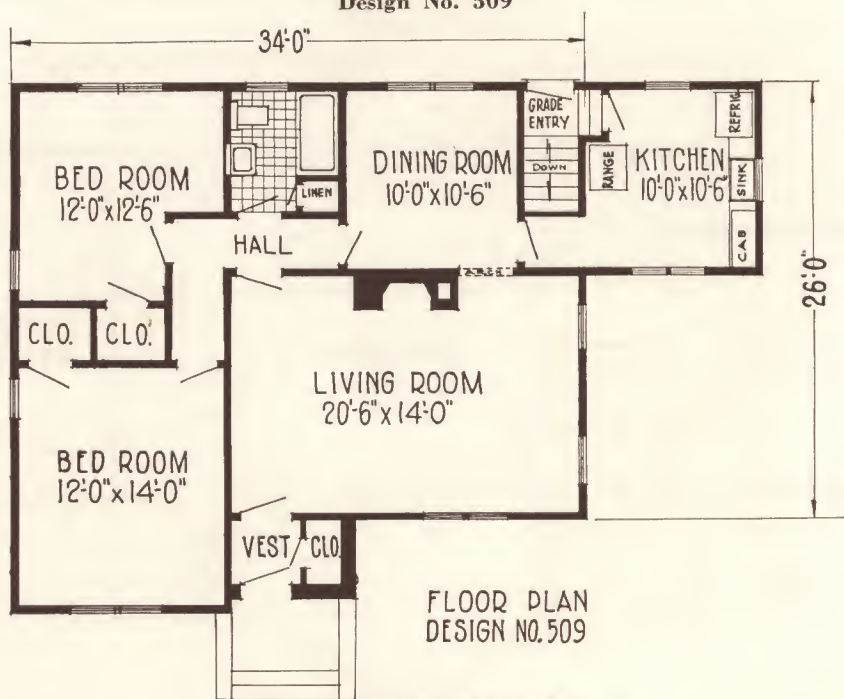

Plan No. 507—Size, 48 by 26 feet 6 inches

This individual type attractive home is very popular in the South and will be just as much in demand in the North. Entry is made through vestibule into large, well-lighted living room with fireplace, arched entrance to dining room and French door to screened porch. The two large bedrooms, each with roomy closets and corner windows connect with center hall and bathroom. The kitchen has a good size cabinet with sink in center, range and refrigerator space, door to garage and to rear entry leading to basement and outdoors. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

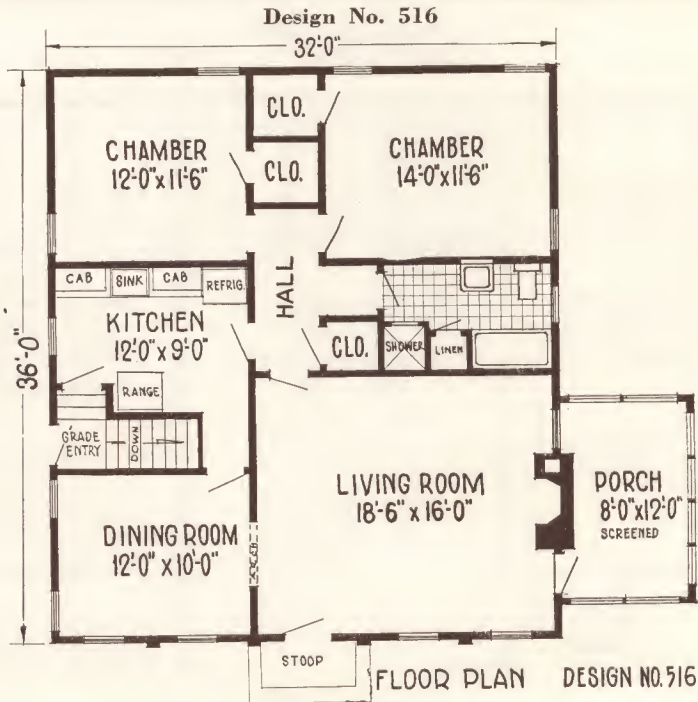

Design No. 509

Plan No. 509—Size, 34 by 26 feet.

For economy in design this attractive bungalow is very popular. The dimensions shown above do not include the 5-foot bedroom and 10-foot kitchen projections. The vestibule has a closet and entry to large, well-lighted living room which has fireplace and arched entrance to dining room. The kitchen is very bright and cheerful with large cabinet, space for range and refrigerator and door to grade entry leading to basement and outdoors. The two large bedrooms with roomy closets connect with center hall and bathroom. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

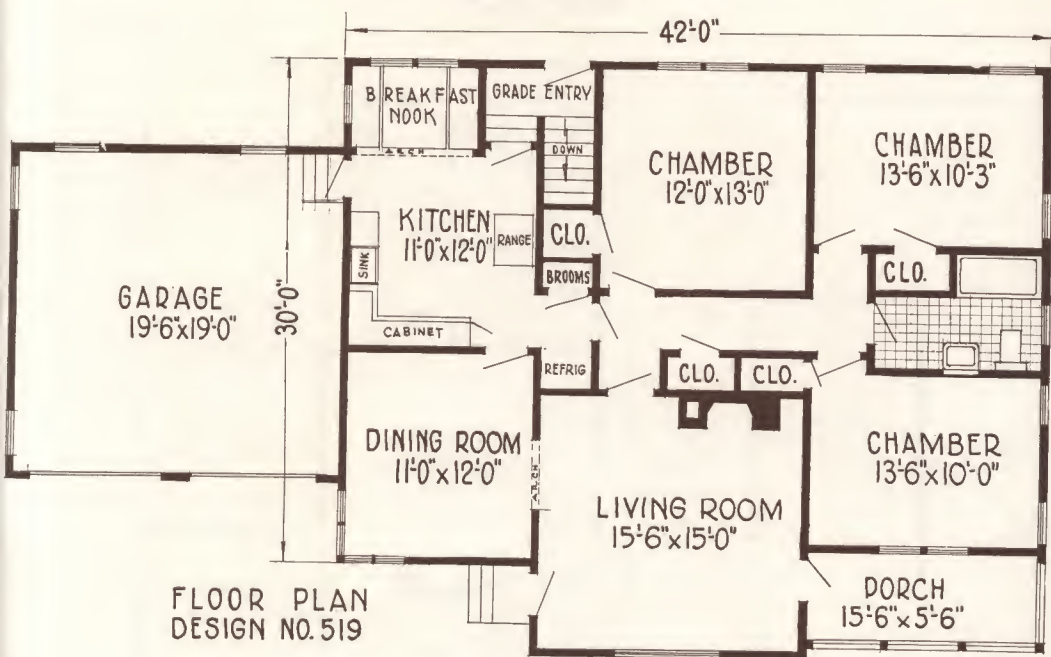

Plan No. 516—Size, 32 by 36 feet.

The abundant floor windows and pillar effect carried out in this design produce a very unique and exclusive type bungalow. The large living room has a fireplace, arched entrance to well-lighted dining room and French door to side porch or sun room. The kitchen has large cabinets, space for range and refrigerator and door to grade entry leading to basement and outdoors. The small center hall has a closet and connects the two large well-lighted bedrooms, each with roomy closets. The bathroom is large and has linen cabinet and shower room. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 519

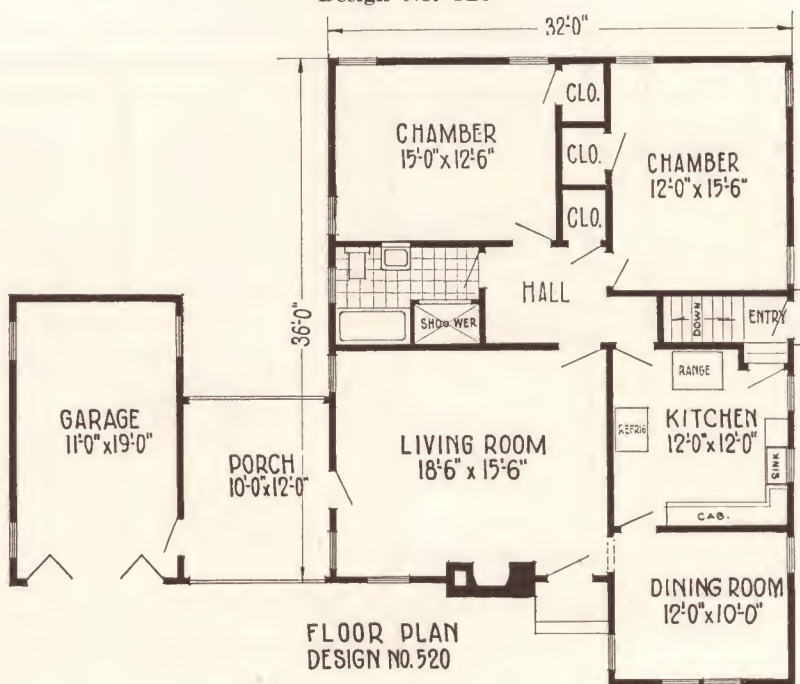

Plan No. 519—Size, 42 by 30 feet.

Beauty in design and the utmost in convenience and arrangement are incorporated in the plan of this attractive home. The large living room has fireplace, arched entrance to dining room and French door to porch. The large kitchen has abundant cabinets, cozy breakfast nook, space for range, refrigerator, broom closet, door to double garage and door to rear grade entry leading to basement and outdoors. The three large bedrooms with roomy closets are well-lighted and connect with small center hall and bathroom. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 520

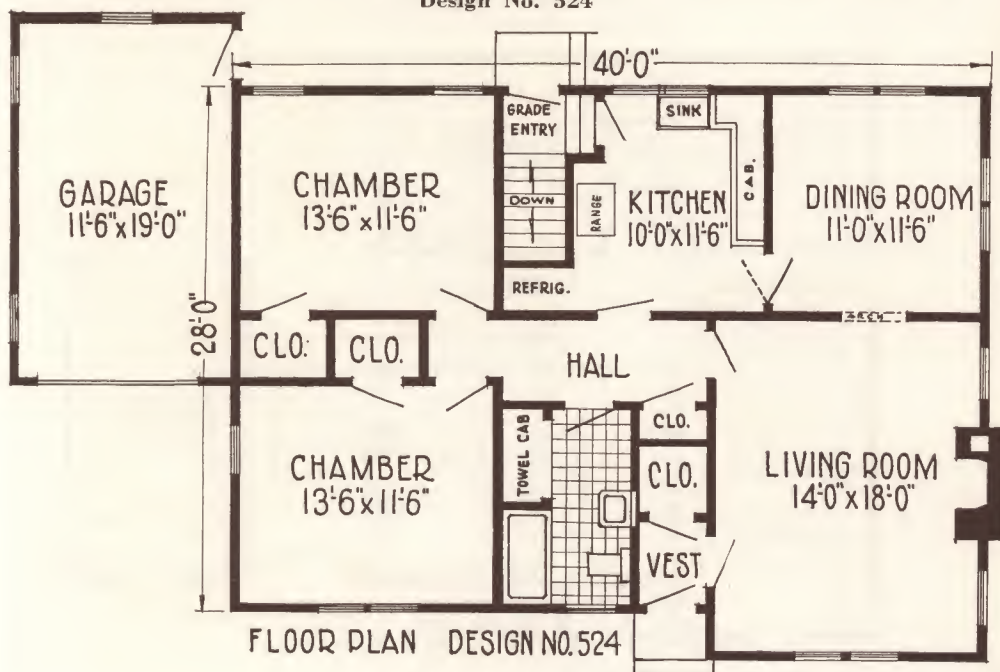

Plan No. 520—Size, 32 by 36 feet.

This beautiful Southern style bungalow with connecting porch to garage is becoming very popular in all sections of the country. The large living room has fireplace, arched entrance to secluded dining room and French door to porch connecting with garage. The large kitchen has plenty of cabinets, space for range and refrigerator and door to grade entry leading to basement and outdoors. The two spacious well-lighted bedrooms have large closets and are connected with small center hall and bathroom. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 524

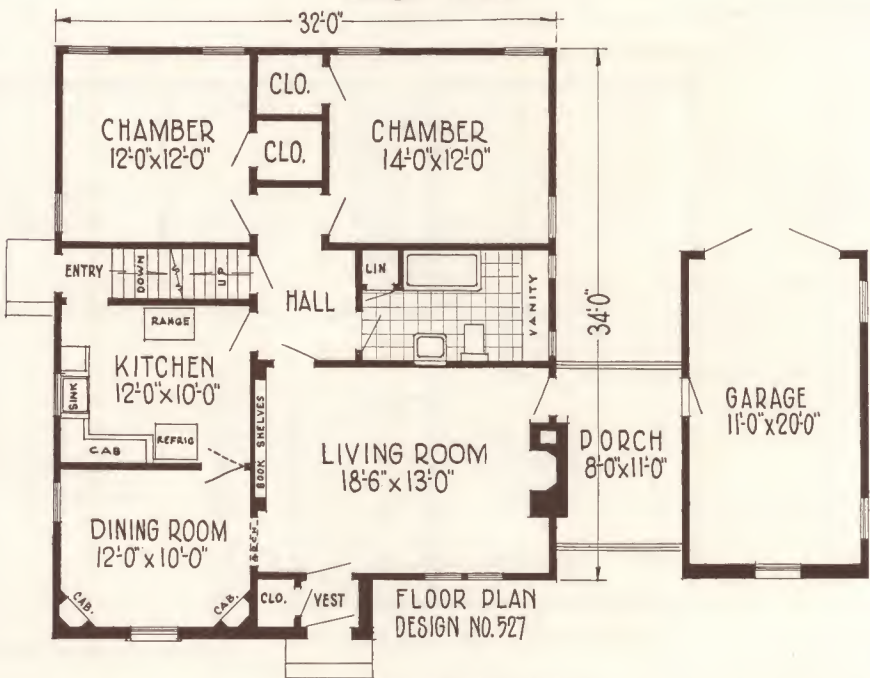

Plan No. 524—Size, 40 by 28 feet.

The combination of shingles, board and batten, canopy over and trellis work at each side of front living room window are inexpensive touches that add greatly to the beauty of this bungalow design. Entry is made through vestibule which has closet and door to large well-lighted living room with fireplace, arched entrance to dining room and door to center hall. The kitchen has a large cabinet, space for range and refrigerator and door to grade entry leading to basement and outdoors. The two ample size bedrooms have roomy closets and connect with center hall and bathroom. Exterior walls shingled except board and batten portion of front wall. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 527

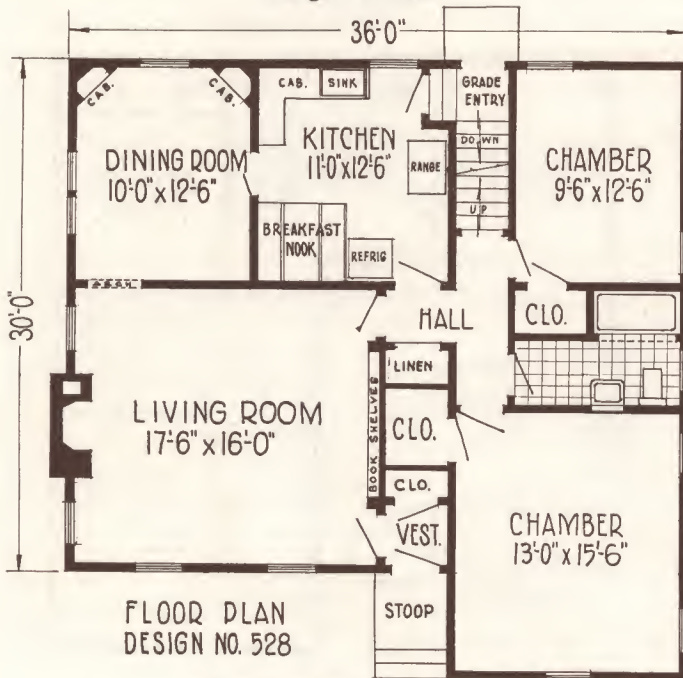

Plan No. 527—Size, 32 by 34 feet.

With front wall of brick and board and batten in gables and screened porch connecting to garage this artistic bungalow is an extremely popular design. The vestibule has a closet and door to large living room with fireplace, French door to porch and recessed bookshelf arch. The dining room is ample size with attractive corner cabinets. The kitchen has plenty of cabinet room, space for range and refrigerator and door to side entry leading to basement and outdoors. The two large bedrooms have roomy closets and connect with center hall and bathroom. The bathroom has a built-in vanity and linen cabinet. Space for additional room is available on second floor. Exterior walls of lap siding except brick portion of front wall. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 528

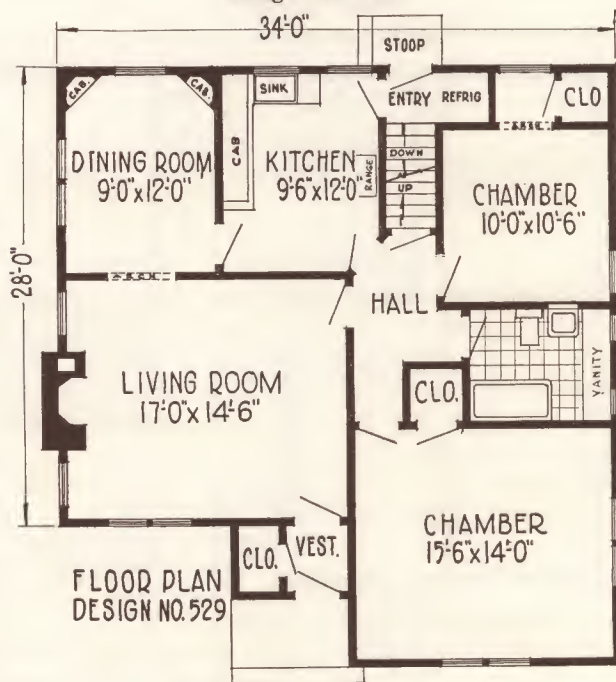

Plan No. 528—Size, 36 by 30 feet.

This attractive bungalow has all the conveniences to be found in the larger and more expensive homes. Entry is made through vestibule into large well-lighted living room which has fireplace, arched entrance to dining room and triple door and bookshelf arch, which with the artistic corner cabinets in dining room produces a luxurious interior. The kitchen is large with ample cabinets, breakfast nook, space for range and refrigerator and door to grade entry leading to basement and outdoors. The two bedrooms with roomy closets connect with small center hall and bathroom. Linen closet is provided in hall, also stairway to second floor where two additional rooms may be finished when desired. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 529

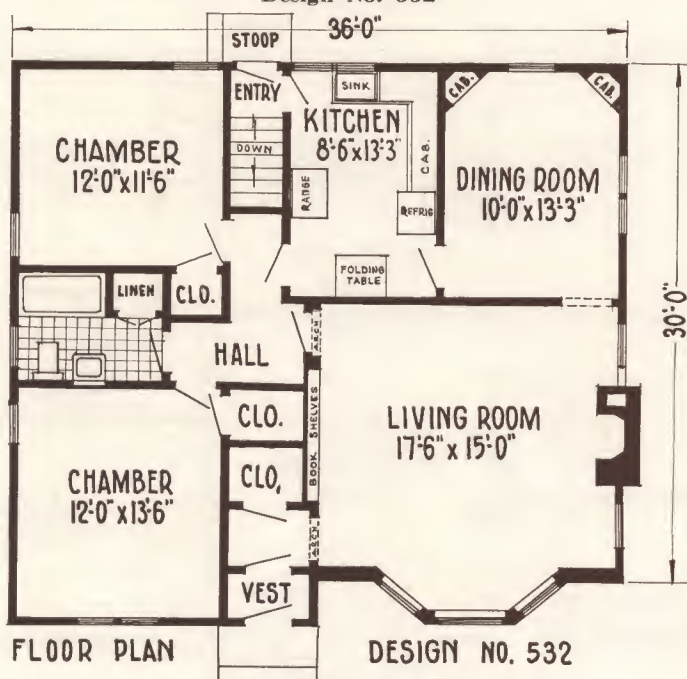

Plan No. 529—Size, 34 by 28 feet.

The vestibule and bedroom projections and combination of shingled exterior walls with boards in gable produce a pleasing design. The vestibule has closet and leads to large, well-lighted living room with fireplace, arched entrance to dining room which has artistic corner cabinets. The kitchen has large cabinets, space for range and enclosed space for refrigerator, also door to rear entry leading to basement and outdoors. The two bedrooms with roomy closets connect with small center hall and bathroom which has a built-in vanity. Additional room or two may be finished on second floor when desired. Exterior walls shingled with boards in front gable. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 532

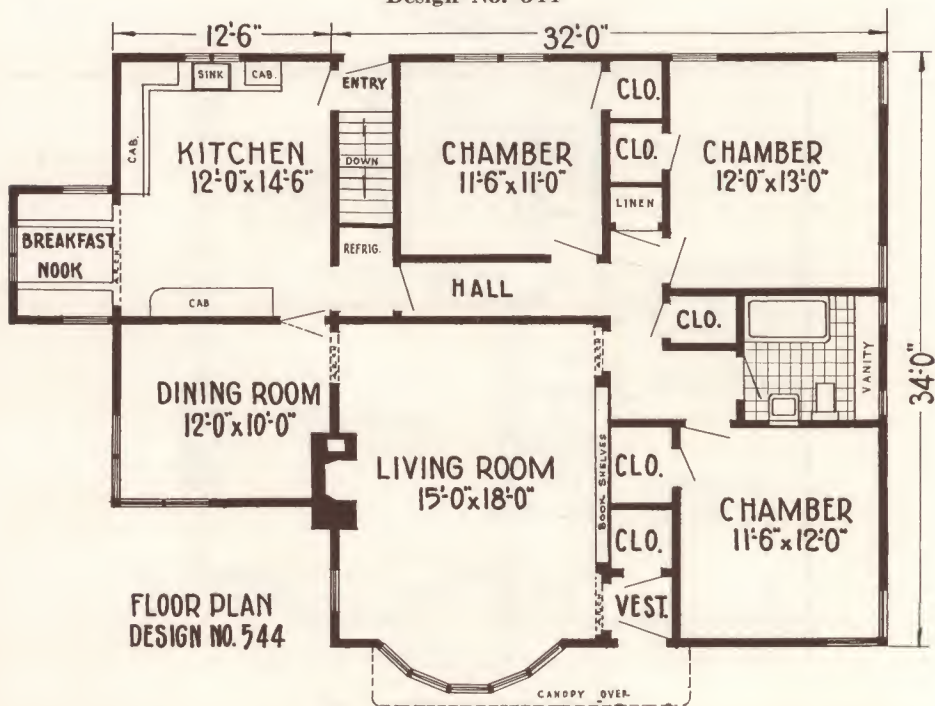

Plan No. 532—Size, 36 by 30 feet.

The beauty of this bungalow is enhanced considerably with the combination of shingles and brick for the front exterior wall and the attractive bay window. The vestibule has a closet and arched entrance to large, well-lighted living room with fireplace and triple door and bookshelf arch and arched entrance to dining room with corner cabinets. The kitchen has large cabinets, space for range, refrigerator, folding table and door to rear entry leading to basement and outdoors. The small center hall connects both bedrooms and bathroom. For type of heating system and basement provision, refer to last page. Exterior walls are shingled except brick portion of front wall. Ceiling height, 8 feet 6 inches.

Design No. 544

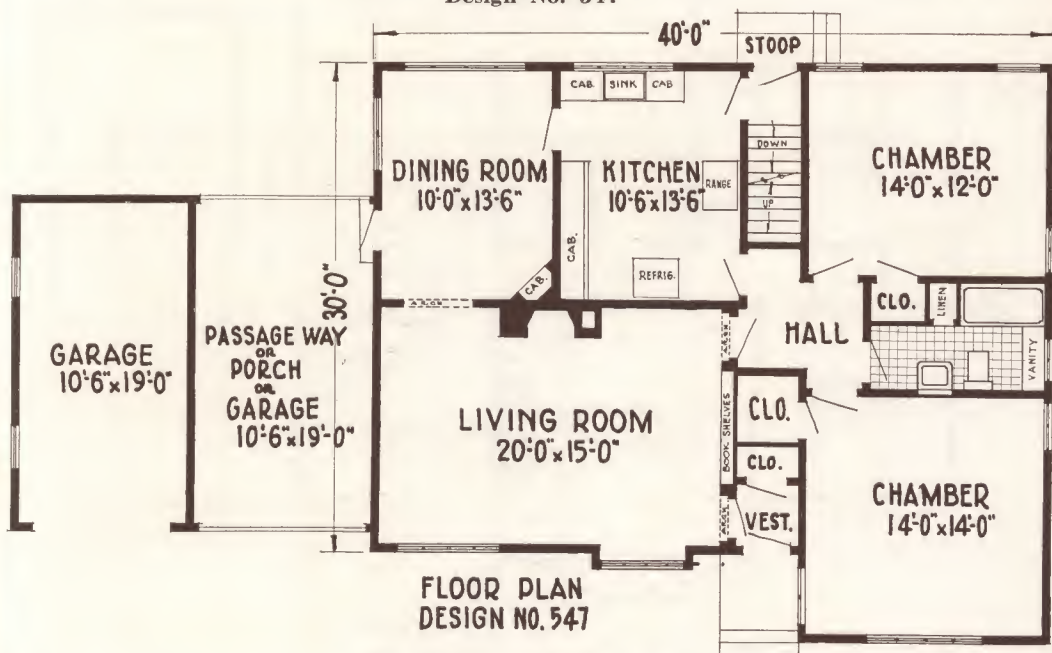

Plan No. 544—Size, 32 by 34 feet.

A truly palatial bungalow with the very popular and artistic corner windows, low roof effect and canopy across front living room wall produce a beautiful exterior design. Entrance is made through vestibule which has coat closet and arched entrance to spacious, well-lighted living room having fireplace, triple door and bookshelf arch along right wall and arched entrance to dining room. The kitchen is large with abundant cabinets, cheerful breakfast room adjoining, space for range and refrigerator and door to rear entry leading to basement and outdoors. The center hall has a clothes and linen closet and connects the three well-lighted bedrooms and bathroom. Exterior walls are of wide grooved siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

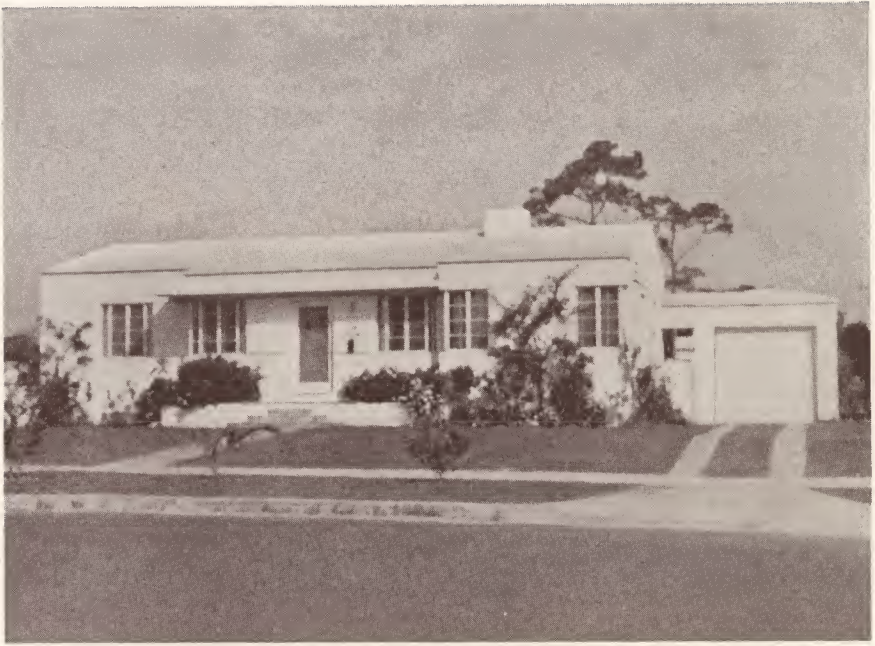

Design No. 547

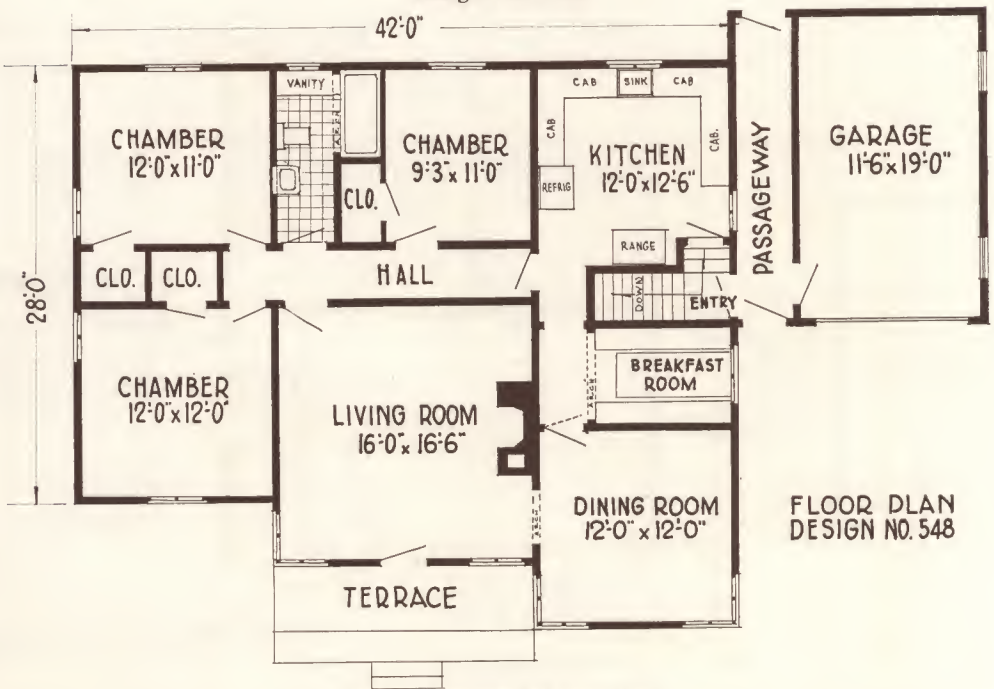

Plan No. 547—Size 40 by 30 feet.

Strictly modern in design and arrangement this attractive bungalow is individual in design and artistic in appearance. Entry is made through vestibule which has a coat closet and door to spacious, well-lighted living room which has a fireplace, arched entrance to dining room and triple door and bookshelf arch along right wall. The kitchen is good size and has abundant cabinets, space for range and refrigerator and door to rear entry leading to basement and outdoors. The small center hall connects the two large bedrooms and bathroom. A linen closet and built-in vanity is located in bathroom. For type of heating system and basement provision refer to last page. Exterior walls are of grooved siding. Ceiling height, 8 feet 6 inches.

Design No. 548

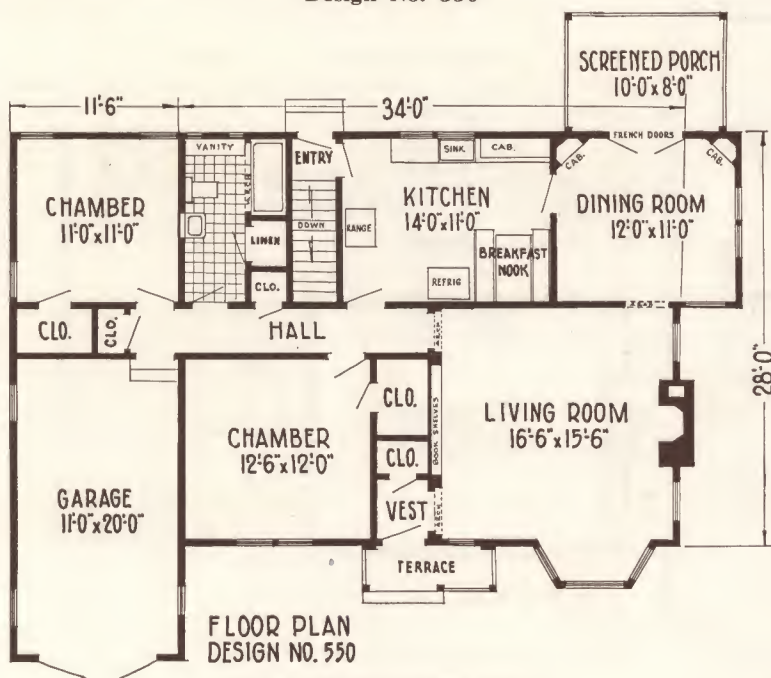

Plan No. 548—Size, 42 by 28 feet.

This thoroughly modern bungalow of latest design has a very pleasing and attractive exterior with the popular corner windows and canopy over terrace. The large living room has a fireplace and arched entrance to well-lighted dining room with cozy breakfast room adjoining. The large kitchen has ample cabinets, space for range and refrigerator and door to side entry leading to basement, garage and outdoors. The three bedrooms with roomy closets connect with center hall and bathroom. The bathroom has a built-in vanity and arched recess for tub. Exterior walls of wide grooved siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 550

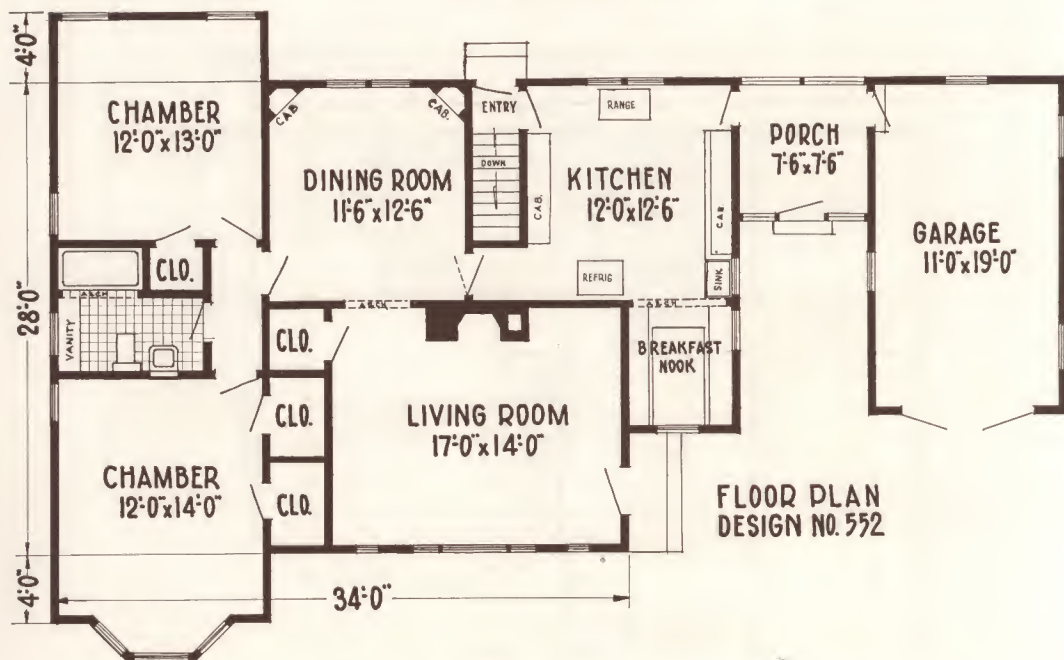

Plan No. 550—Size, 34 by 28 feet.

This attractive Southern type bungalow has a spacious and convenient interior arrangement. Entrance is made through vestibule which has a coat closet and arched entrance to large, well-lighted living room with fireplace, triple door and bookshelf arch along left wall and arched entrance to a well-appointed dining room with corner cabinet and French door to adjoining porch. The kitchen is good size and has abundant cabinets, cozy breakfast nook, space for range and refrigerator and door to rear entry leading to basement and outdoors. The center hall has two closets and connects both bedrooms, bathroom and garage. The bathroom has a linen closet and built-in vanity. Exterior walls of wide grooved siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 552

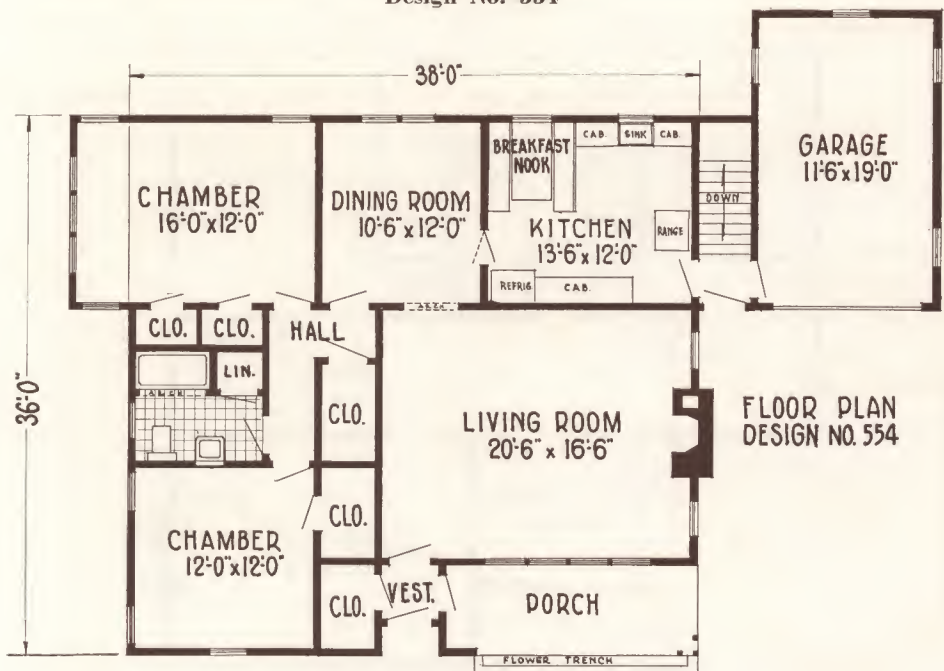

Plan No. 552—Size, 34 by 28 feet.

This rambling style bungalow is very artistic and rich in appearance. The large living room has closet, fireplace and arched entrance to dining room. The kitchen has ample cabinets, cozy breakfast nook adjoining, space for range and refrigerator and door to rear entry leading to basement and outdoors, also door to porch with entry to garage. The two large, well-lighted bedrooms connect with center hall and bathroom. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 554

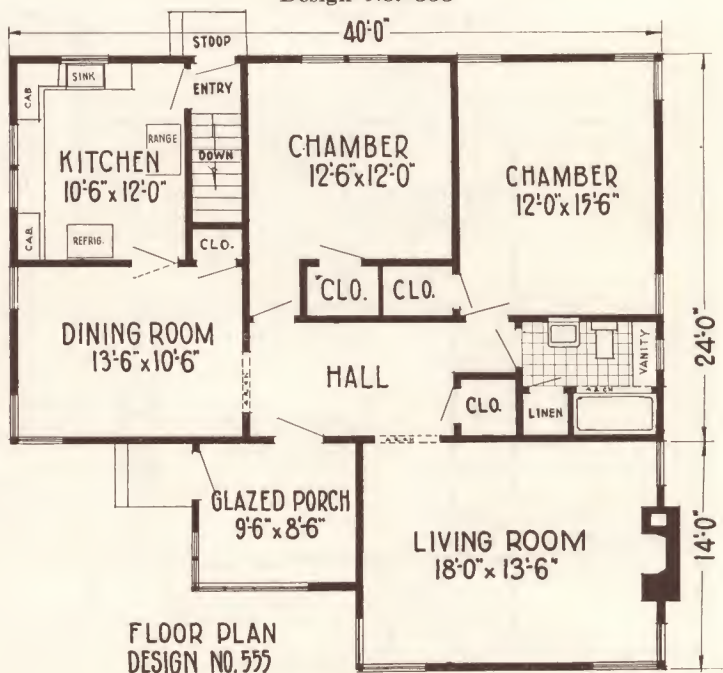

Plan No. 554—Size, 38 by 36 feet.

This attractive bungalow with recessed entry door and front porch with flower trench has a very pleasing exterior. The vestibule has coat closet, door to porch and to spacious living room with fireplace and arched entrance to dining room. The large kitchen has ample cabinets, cozy breakfast nook, space for range and refrigerator and door to side entry leading to basement, garage and outdoors. The small center hall has a large closet and connects both bedrooms and bathroom. The bathroom has a linen closet and arched recess for tub. Exterior walls of grooved siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 555

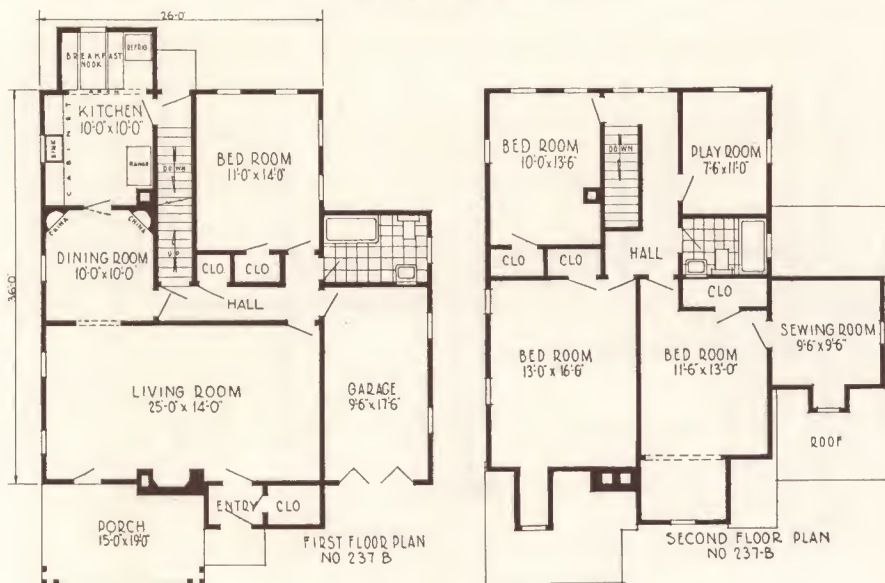

Plan No. 555—Size, 40 by 24 feet.

The interior arrangement of this unusual type bungalow is very compact and spacious. Entrance is made from glazed porch to center hall with arched openings to dining room and to living room, which is large and well lighted and has fireplace. The kitchen has plenty of cabinets, space for range and refrigerator and door to rear entry leading to basement and outdoors. The two large bedrooms with roomy closets connect with center hall and bathroom. A closet is located in hall and the bathroom has a linen closet and built-in vanity. Exterior walls are of lap siding. Ceiling height, 8 feet 6 inches. For type of heating system and basement provision, refer to last page.

Design No. 237B

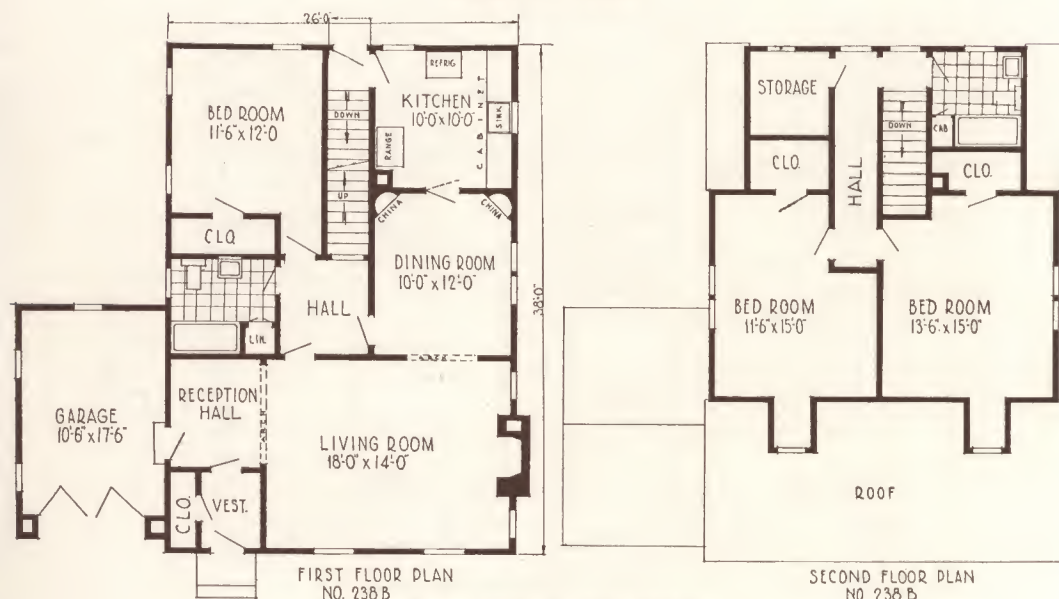

Plan No. 237B—Size 26 by 36 feet

The projected vestibule and porch and the dormer on either side of gable, as well as attached garage at side, produce an exterior of individuality and artistic beauty. Entrance is made through vestibule into spacious living room having fireplace, French door to porch and arched entrance to dining room. The center hall connects all rooms, including garage, and has stairway to second floor where three additional bedrooms, playroom, sewing room and bathroom are provided. The kitchen has a cabinet with two-tray sink in center, chimney for range, breakfast nook, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, laundry, furnace, fruit and storage rooms. Hot water heat is recommended. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

Design No. 238B

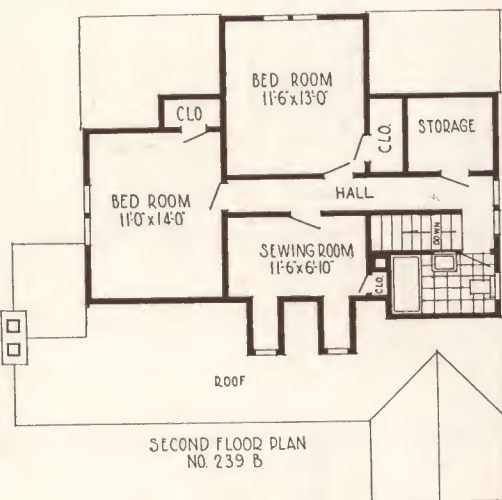

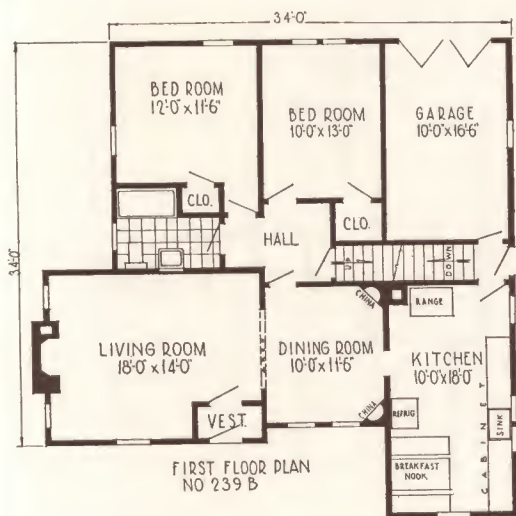

Plan No. 238B—Size 26 by 38 feet

Always a popular type design—the attached garage at side and artistic dormers enhance the exterior of this attractive semi-bungalow. Entrance is made through vestibule to hall which has a door leading to garage and an arch connecting living room, which is well-lighted and has a fireplace and arched entrance to dining room. The center hall connects all rooms and has a stairway leading to second floor where two additional bedrooms and bathroom are provided. The kitchen has a cabinet with two-tray sink in center, chimney for range and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, laundry and fuel room. Hot water or warm air heating plant may be used. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

Design No. 239B

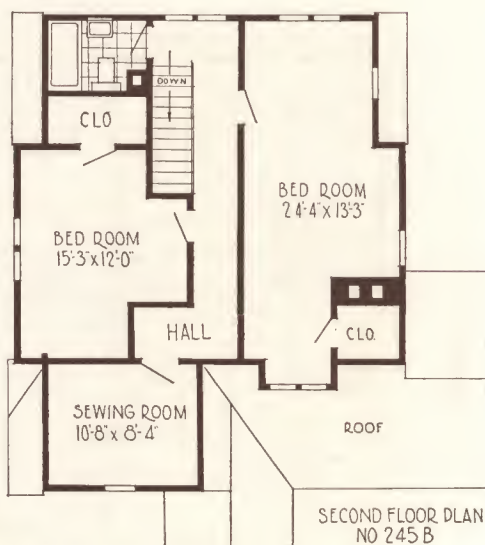

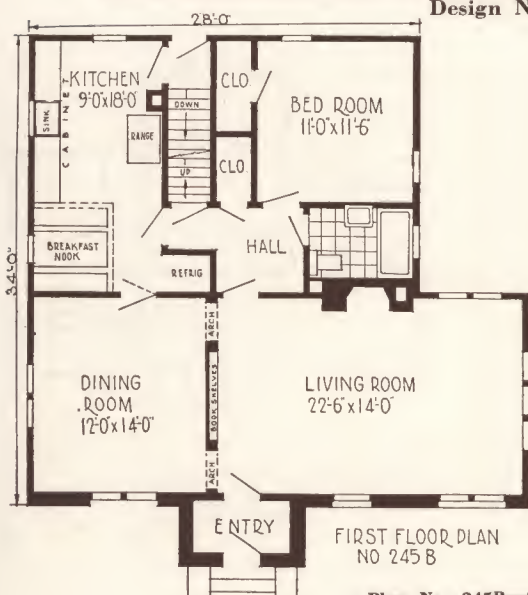

Plan No. 239B—Size 34 by 34 feet

This extremely attractive bungalow borrows from the Cape Cod style and is of a distinctive type. The large, well-lighted living room with fireplace, arched entrance to dining room which has recessed corner cabinets with open shelves for ornamental pieces produces a luxurious interior. The small center hall connects both bedrooms with bathroom and has stairway leading to second floor where two additional bedrooms, sewing room and bathroom are provided. The kitchen is very roomy and has breakfast nook, cabinet with two-tray sink in center, chimney for range and door to rear entry leading to garage, basement, and outdoors. A brick water table extends around entire house with siding above. Basement under entire house with ample space for recreation room, laundry and fuel room. Hot water or warm air may be used for heating. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

Design No. 245B

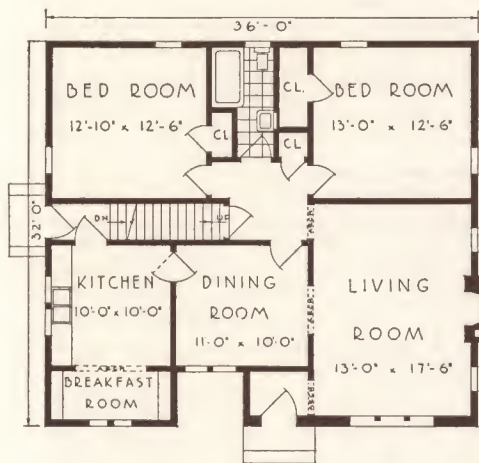

Plan No. 245B—Size 28 by 34 feet

A very unique and distinctive type exterior with batten board gables, rock front and projected vestibule give this bungalow a very pleasing appearance. Entry is made through vestibule into large well-lighted living room with fireplace, double-arch entrance to dining room with center recessed arch with open shelves for ornamental pieces or books, making a very luxurious combination. The small center hall connects all first-floor rooms and has stairway to second floor where two additional good-size bedrooms, sewing room and bathroom are provided. The exterior walls, except front wall, are shingled. The kitchen is thoroughly modern, having large cabinet with window and two-tray sink in center, refrigerator space, breakfast nook, chimney for range, and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with ample space for recreation room, toilet room, laundry, furnace, vegetable and storage rooms. Ceiling height, first floor, 8 feet 3 inches; second floor, 7 feet 6 inches.

NO. 251-A

Plan No. 251A—Size, 36 by 32 feet.

FLOOR PLAN

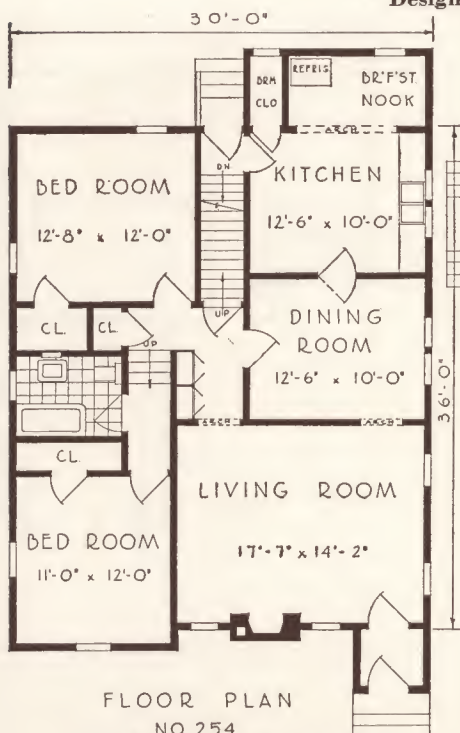

NO. 251

Plan No. 251—Size, 36 by 38 feet.

This very unique new style bungalow is extremely attractive in design and is a decided departure from the usual style architecture. The exterior walls are covered with shingles, except the lower portion of vestibule and living room front wall, which is constructed of rock face stone and common brick. The interior arrangement is very compact and luxurious in appearance with living room, dining room and kitchen across entire front. The living room is spacious, well lighted and has arched openings to vestibule and dining room. The center hall connects all rooms and has stairway leading to second floor where ample space is available for finishing two additional bedrooms and bathroom. The kitchen has a cabinet with two-tray sink in center and arched opening to breakfast room. Seven-foot basement under entire house with space for large recreation room with fireplace. Hot water or a warm air heating system may be used. Ceiling height, 8 feet 3 inches.

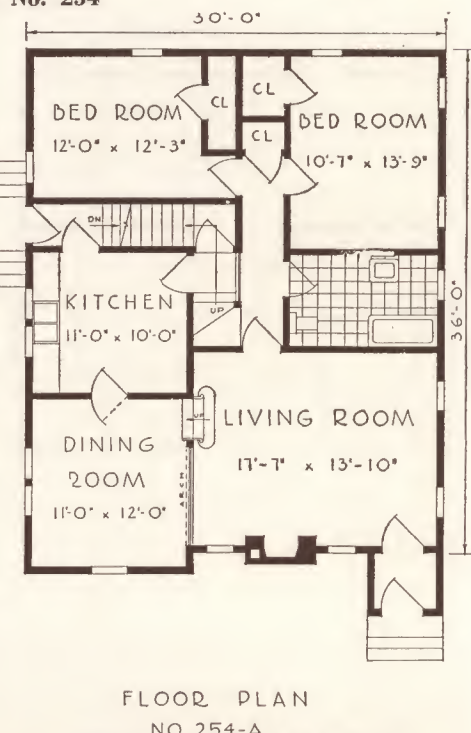

Design No. 254

Plan No. 254—Size, 30 by 36 feet.

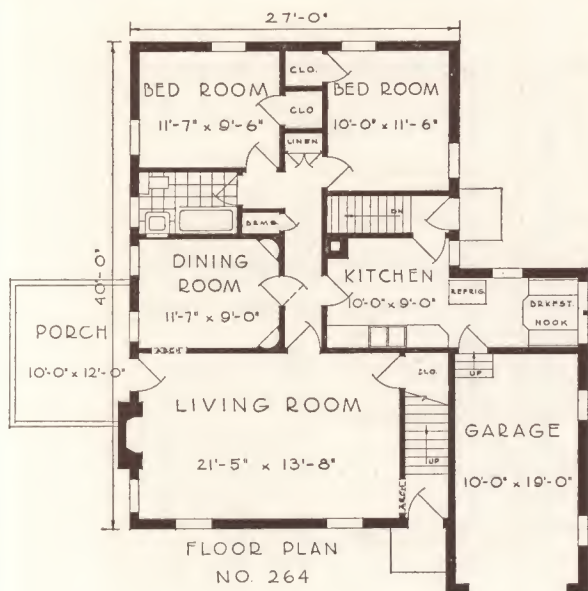

The feature of this attractive new style bungalow is the provision for garage in front of house proper without sacrificing front room space and light. The rooms above garage in each plan are elevated about two and a half feet above main portion of house with stairs leading to same. In each plan entrance is made through vestibule into spacious, well-lighted living room having fireplace. In the smaller size plan an artistic stairway with wrought iron rails leads to dining room with an arched opening between the two rooms and low iron grill. The center hall connects all rooms and has a stairway leading to second floor where an additional bedroom may be finished. The kitchen has a cabinet with two-tray sink in center and door to rear entry. Ceiling height, 8 feet 3 inches.

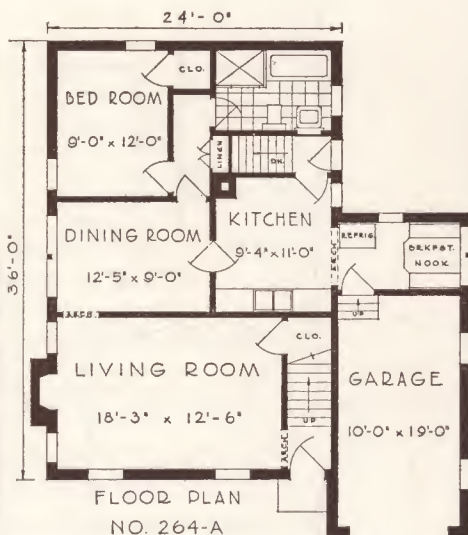

Plan No. 254A—Size, 30 by 36 feet.

Design No. 264

Plan No. 264—Size, 27 by 40 feet.

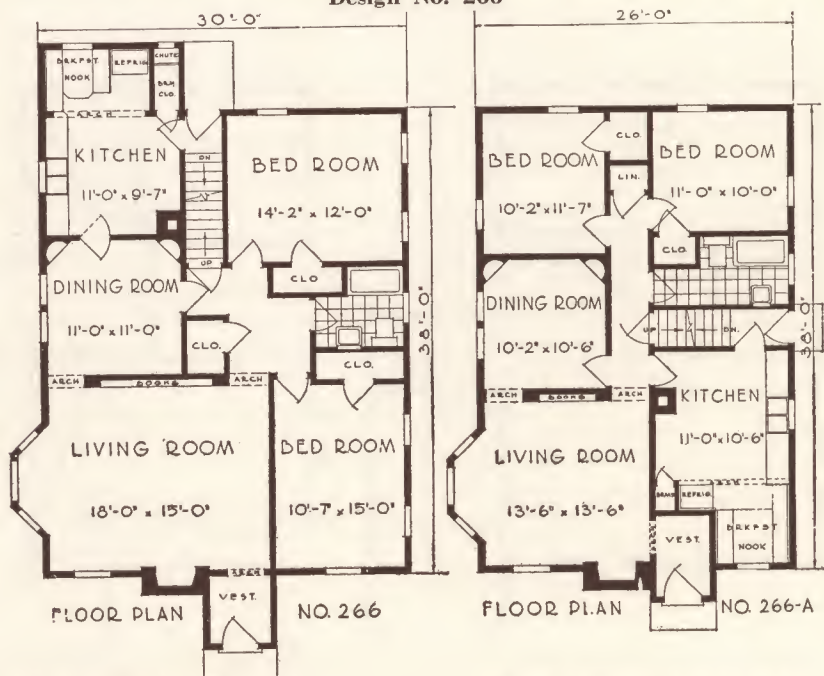

Plan No. 264A—Size, 24 by 36 feet.

This Cape Cod style bungalow is a very popular design and extremely attractive. The exterior walls are of common brick (buff color). If desired, white common brick will be just as effective. The vestibule has a stairway leading to second floor and plaster arch opening into spacious, well-lighted living room with fireplace and arch opening into dining room. The center hall connects every room with bath. The kitchen has a cabinet with two-tray sink, chimney for range, refrigerator space and breakfast room adjoining with door leading to garage. Space is provided on second floor for two good size rooms and bath. Seven-foot basement under entire house with space for recreation room. Hot water or a warm air heating system may be used. Ceiling height, 8 feet 3 inches.

Design No. 266

Plan No. 266—Size, 30 by 38 feet.

Plan No. 266A—Size, 26 by 38 feet.

The double gable effect, including projected vestibule entrance and front fireplace chimney, produces a very pleasing exterior. Exterior walls are of siding. Entry is made through vestibule into spacious living room having fireplace, bay window and plaster arch openings into dining room and center hall, between which is a recessed arched opening with open bookshelves. The dining room has two corner-arch recessed openings with open shelves for ornamental pieces. The center hall connects all rooms and has stairway leading to second floor where ample space is available to finish two extra rooms and bath. The kitchen has a cabinet with two-tray sink, chimney for range, breakfast nook, broom closet, refrigerator space and door to rear entry leading to basement and outdoors. Seven-foot basement under entire house with space for large recreation room. Hot water or a warm air heating system may be used. Ceiling height, 8 feet 3 inches.

 ADDITIONAL SETS OF SPECIFICATIONS - - - - 1.00 per set

(No extra charge for reversing plans)

COMPLETE PLANS include blue prints of front, rear and both side elevations, wall section, and full details of construction, basement plan including section of foundation wall, also complete floor plans, all drawn to a scale of one-quarter inch to the foot.

DETAILS include blue prints of arches, fireplace, bookcases, breakfast nook, kitchen, linen and medicine cabinets, drawn to a scale of one inch to the foot. The various fixtures are shown in two or three styles, affording you a choice in design.

SPECIFICATIONS include fifteen typewritten pages and are complete in every particular, covering all products required, the kind and quality, and the manner in which the labor is to be performed. For basement provision and type of heating system refer to last page.

INSTRUCTIONS FOR ORDERING PLANS

When ordering plans, kindly enclose remittance in full, with order. If you desire to have plans reversed (a transposition of the rooms, from one side to the other) be sure and mention when ordering. Plans will be shipped same day as order is received.

PLAN SERVICE COMPANY

224 South Lexington Parkway Phone Elkhurst 2425 Saint Paul, Minnesota

Plans and Specifications

Exterior Material

If desired, lumber (siding or shingles), stucco, brick veneer, hollow tile and brick, or a combination of either may be substituted in place of the specific material shown in illustration, without making any change in plans. A 12-inch foundation wall provides for use of any of these materials. If hollow tile and brick are used, the outside dimensions of building should be increased one foot in length and width, six inches on all sides, to retain the same inside measurements as shown in floor plan illustration.

Interior Changes

Changes in arrangement of interior fixtures, such as eliminating or adding fireplace, substituting French doors or plain casied openings in place of arches, eliminating or adding certain fixtures or cabinets, or omitting kitchen chimney, can be arranged for at owner's will, by noting changes in writing and incorporating same in specifications and contract.

Alterations in Plans

When the alterations desired require only the changing of partitions or slight rearrangement of rooms, lengthening or diminishing size of building, changing location or size of windows and doors, it is not necessary to have such changes shown on the blue prints, but if changes are desired, such as will require redrawing of plans (refer to following paragraph).

Special Plans

If you do not find a design in this book to serve your purpose and desire to have a special set of drawings prepared, simply mail us a rough pencil sketch of the arrangement wanted and we will promptly quote you our most reasonable rate for preparing the special plans.

Heating Specifications

The complete specifications furnished with each set of plans provide for the complete installation of warm air or hot water system with or without oil-burning equipment, Thrush hot water heating system, Triple Duty hot water system with oil-burning boiler, pump system or closed pressure hot water system with oil-burning boiler, moist air oil fired air-conditioning system and moist air hand fired air-conditioning system. Type of system to be decided by owner.

Basement Provision

The plans provide for seven-foot basement under entire house with space for recreation room, laundry, vegetable, storage rooms and lavatory. In sections of country where only partial basement or no basement at all is necessary, the basement plan is used for basement under any portion of house and for correct wall footing, if no basement is required and the space used for basement stairway may be used as an addition to adjoining room.

Instructions for Ordering Plans

When ordering plans, kindly enclose remittance in full, with order. If you desire to have plans reversed (a transposition of the rooms, from one side to the other) be sure and mention when ordering. Plans will be shipped same day as order is received.
